

FOR IMMEDIATE RELEASE

California's Premier Anatomic Pathology Laboratory Services Company, Pathology, Inc., Adds Two Seasoned Executives and an Experienced Board Member
Quality Team Focused on Delivering Continued Technological Leadership and Excellent Service

Torrance, California, January 5, 2010 – Pathology, Inc., the region's leading anatomic pathology laboratory providing innovative diagnostic technologies with nationally recognized pathology expertise, today announced it had appointed Robert Albert as Chief Operating Officer, Dr. Ronald Blum as Vice President of Marketing and Research & Development, and Jerrold Glick as Member of the Board of Directors.

"We are thrilled to have these three talented individuals join our organization," says President and CEO, Vicki DiFrancesco, "They bring important management skills and experience to the company which will be instrumental to the continued success and expansion of our laboratory as a leader in providing premier pathology services to our clients and their patients."

Pathology, Inc. specializes in diagnostic testing services with expertise in gynecology, genitourinary pathology, gastrointestinal pathology, dermatopathology, hematopathology, and cytopathology. The Company also performs an array of tests focusing on women's health including comprehensive liquid-based Pap testing, an array of associated molecular diagnostic assays, and computer assisted interpretation techniques. The women's health market represents one of the largest anatomical pathology segments, with the U.S. cervical cancer screening market alone estimated at over \$1.7 billion.

Mr. Albert brings over twenty years of experience in the clinical laboratory industry with senior executive positions in business development and strategic planning, most recently serving as Vice President of Northwest Region at LabCorp and formerly as Senior VP for Dynacare Clinical Labs. Mr. Albert has a proven track record of growth through acquisition, business retention, organic sales, and promotion of new test offerings. Mr. Albert is a member of the Board of Directors of the Association of Washington Business and is a former Board member of MS Hub devoted to the care of patients with Multiple Sclerosis. Mr. Albert received his Bachelor of Science degree in Biology and Chemistry and an MBA from Oral Roberts University.

Dr. Blum brings nearly twenty years of experience in the medical and clinical laboratory industries having worked at Culture Technology, Inc., Specialty Laboratories, DiagnoCure, and Exiqon Diagnostics. He was instrumental in bringing to market innovative assays in the areas of oncology, women's health, infectious disease, rheumatology, and gastroenterology. Dr. Blum has lectured internationally on the latest developments in personalized medicine, biotechnology, and laboratory science, and has published extensively. He serves as Editorial Advisor to Clinical Lab Products magazine and is on the Board of Directors for the California Medical Technology Association Education & Research Corporation. Dr. Blum holds a B.S. in Biology, an M.S. in Physics, and a Ph.D. in Biophysics from University of California, Berkeley.

Mr. Glick brings over thirty years of experience in the healthcare and real estate industries, founding clinical laboratories and biotechnology companies including American Medical Laboratories, and Telik, Inc. In 1997, Mr. Glick co-founded Renal Ventures, Inc., a national provider of renal care services for which he continues to serve as an officer and director of the company. Mr. Glick was co-founder and director of QualiCenters, Inc., which provided dialysis services before being sold to Fresenius, A.G. Mr. Glick has been active on a number of Denver community boards and commissions including serving as a director of Republic Financial Corporation, a Denver-based financial services company. Mr. Glick is currently managing partner of Columbia Group LLLP, a Denver-based investment company.

About Pathology, Inc.

Pathology, Inc. is a provider of anatomic pathology and molecular diagnostic testing services. The Company has built a solid reputation for quality and customer service with clients that include OB/Gyns, dermatologists, urologists, gastroenterologists, and family practitioners, as well as surgicenters, endoscopy centers, hospitals, and independent laboratories. Pathology, Inc. has 170 full-time employees located at two separate facilities; its Torrance headquarters and a second smaller facility. Both facilities are CLIA certified and CAP accredited.

The Company's pathologists, through its association with Affiliated Pathologists Medical Group (APMG), are all board certified and have a variety of multi-specialty interests and expertise as well as extensive cumulative experience in outpatient pathology. They have provided pathology services to physician offices for over 25 years.
