**West Coast Clinical Laboratories Merges
with Pathology, Inc.**

November 30, 2011

Dear Colleague:

We are very pleased to announce that West Coast Clinical Laboratories (WCCL), a leading California provider of full-service laboratory testing focusing on women's health and reproductive donor testing, has merged with Pathology, Inc.

This novel partnership brings together expertise from two laboratories that have been servicing the women's health community in California for decades. This unique opportunity will mean access to an expanded test menu, including specialized testing in fertility and women's health, IVF donor testing, and STAT testing for key assays.

WCCL offers a comprehensive menu of clinical and AP testing services for OB/Gyns, family practitioners, and primary care physicians, as well as specialists including gastroenterologists, urologists, and dermatologists. WCCL has been serving the Los Angeles community of California for over 20 years and has a reputation of providing unparalleled service and support to its clients and patients. Specializing in fertility testing, WCCL provides quality FDA donor testing for In Vitro Fertilization (IVF) clinics and OB/Gyns and offers STAT testing services, facilitated through 14 patient service centers throughout Los Angeles County.

Over the next weeks and months, you will begin seeing these expanded menu and service offerings along with important ordering information.

We thank you for choosing Pathology, Inc. and look forward to your continued support. For additional information, please visit our website at www.pathologyinc.com or contact client services at 877-922-7284.

Sincerely,

Alfred Lui, M.D.
Chief Medical Officer
